

Circular No: ID 18/24

5 December 2024

To Chief Executives
All Licensed Insurers and Lloyd's Asia Scheme

Dear Sir/Madam

INFORMATION PAPER ON ARTIFICIAL INTELLIGENCE MODEL RISK MANAGEMENT

The Monetary Authority of Singapore (MAS) has published an information paper on "Artificial Intelligence (AI) Model Risk Management"¹. The information paper is based on a thematic review of banks' AI (including Generative AI) model risk management practices in mid-2024.

2 This information paper sets out good practices for AI model risk management that were observed during the review, focusing on those relating to governance and oversight, key risk management systems and processes, and development and deployment of AI.

3 MAS encourages all financial institutions to reference these good practices when developing and deploying AI.

Yours faithfully

[sent via MASNET]

DANIEL WANG
EXECUTIVE DIRECTOR
INSURANCE DEPARTMENT
